Section 1

GNOME Radio 3 on Debian GNU/Linux 10, Fedora Core 32 and Ubuntu 20.04

GNOME Radio 3
Free World Broadcasts

GNOME Internet Radio Locator is Free Internet Radio Software for GNOME 3.38.

The latest GNOME Internet Radio Locator 3.0.3 release (Boston) features 125 international radio stations and 58 city map markers around the world.

GNOME Radio 3 will be the successor to GNOME Internet Radio Locator built for GNOME 3 with Cairo, Clutter, Champlain, Maps, GStreamer, and GTK+ 4.

Packaging

Debian GNU/Linux, Fedora and Ubuntu software installation packages of GNOME Internet Radio Locator for the computer hardware architectures i386, x86_64 and amd64 are now available for download and installation with the package management system tools rpm and dpkg.

Debian GNU/Linux 10 i386

- sudo dpkg -i https://www.gnome.org/~ole/debian/
  gnome-internet-radio-locator_3.0.2-1_i386.deb

Fedora Core 32 x86_64

- sudo dnf install http://www.gnomeradio.org/~ole/fedora/RPMS/x86_64/gnome-internet-radio-locator-3.0.2-1.fc32.x86_64.rpm

Ubuntu 20.04 LTS amd64

- sudo dpkg -i http://www.gnomeradio.org/~ole/debian/
  gnome-internet-radio-locator_3.0.2-1_amd64.deb
